8th Annual Horse Festival held at UA

The 8th Annual Horse Festival was held on March 31, 2007. The festival was a complete success with over 4,500 attendees throughout the day on Saturday. The festival is a fund raising event which helps support the D.E. King Equine Program. The event's proceeds were double that of last year's festival. The resounding success of this year's festival is due in part to the tremendous efforts made by the event's coordinator, Kathi Jogan. The event was run by students of the D.E. King Equine Program as well as dozens of Equine Program Volunteers. The program would like to extend thanks and gratitude to all those who participated, volunteered and helped make this event an absolute success.
