Professor Receives Animal Management Award

Charles V. Maxwell, Jr., a professor of swine nutrition and management in the UA Animal Science Department, received the 2007 Animal Management Award at the annual meeting of the American Society of Animal Scientists held on July 9 in San Antonio. The award was sponsored by Merial Limited.

Maxwell, on the UA faculty since 1996, was on the OSU faculty for 28 years. His research with the neonatal and early-weaned pig has resulted in a better understanding of the impact of management systems on performance of young pigs. Other areas of research have focused on sow management, the impact of nutrition on meat quality, and reducing phosphorus in swine wastes.

Maxwell has been a member of the editorial board of the American Society of Animal Science and has served as chairman of several committees in the Southern Section of the ASAS. He has published 72 refereed publications, 2 book chapters, more than 300 abstracts, and has presented 27 lectures nationally and internationally.

Dr. Maxwell and his wife, Gayle, have two children and three grandchildren.
